

SEASONAL CHANGES

Overview

Seasons are different times in the year when there are **weather** changes.

In places like the UK, there are four seasons in a year: **spring**, **summer**, **autumn** and **winter**.

The seasons have an effect on landscapes, and plant and animal life. The length of days change as the seasons change.

The seasons are different in some other parts of the world.

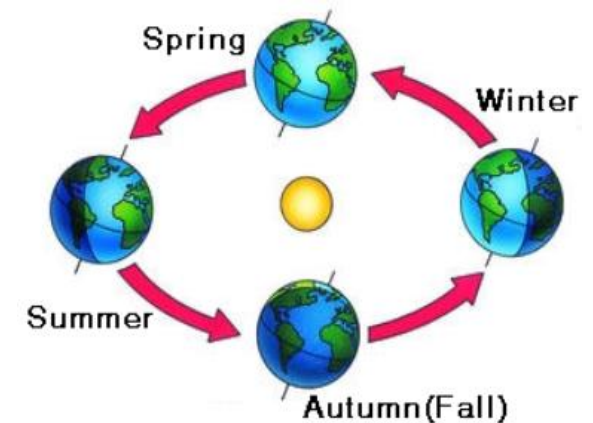

Daylight Hours

Daylight is when it is light outside.

The amount of daylight changes with each season.

In the summer the days are longer.

In the winter the days are shorter

Daylight hours each month:

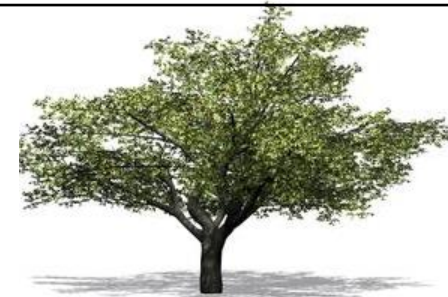

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	June	July	Aug
Hours of Daylight	13	11	9	8	8	10	12	14	15	16	16	14
